USB2.0 microscope „Pen Scope“

Description

This handy USB2.0 microscope can be applied in different fields, e.g. science, industry or home use. Equipped with an aspherical high-tech lense and an built-in LED illumination X3 you can zoom in objects from 50x to 200x, take snap-shots and time-lapsed videos. Due to its small size and light weight, the microscope is very flexible in its application and can also display positions which are difficult to reach.
